# Municipal Cannabis Working Group

## Term of Reference July 12, 2017 (Draft)

### 1. Name

The name of the group will be the Municipal Cannabis Working Group.

### 2. Authority

Established jointly by the Association of Municipal Administrators Nova Scotia (AMANS), and the Union of Nova Scotia Municipalities (UNSM). The Working Group will report to the Board of Directors of UNSM and AMANS.

### 3. Background

The impending legalization of cannabis across the country will have significant impacts on municipalities. To prepare for this, the UNSM, in conjunction with AMANS and the NS Health Authority, hosted a Cannabis Legalization Symposium in Halifax on May 26, 2017. The event was very well attended with 150 municipal, healthcare and policing officials participating. A range of issues were discussed regarding the challenges and opportunities associated with the legalization of cannabis.

Following the event, discussions took place indicating that municipalities should get together to propose their own recommendations for the Province to consider when cannabis is officially legalized by July 2018. While the Province is having discussions currently, municipalities are not at the table. While this may change, it would be beneficial if municipalities could develop their own recommendations in advance of provincial decisions on this file. In addition, municipalities can begin developing policies and bylaws particularly with respect to the workplace.

### 4. Mandate

- To develop a series of recommendations for the Province to consider when developing cannabis regulations
- To develop a series of model bylaws and policies to assist municipalities in preparing for cannabis legalization.

- making recommendations around policing and enforcement
- Developing model human resource policies for municipalities with respect to cannabis impairment in safety sensitive positions as well as duty to accommodate.
- Engage necessary external expertise to assist the committee in fulfilling its mandate.
- Exploring other issues as required.
